NOTES

1. Mapped Wetlands: This map shows non-forested areas (dashed line) 1 acre or greater in size, as identified on National Wetland Inventory Maps. Field verification of the location of the actual wetland boundaries should be undertaken prior to development.
2. Wetland areas contiguous with, and at the same elevation as the normal high water line of great ponds, rivers, and streams are considered part of those waterbodies.

SCALE 1:24 000
